STANDARD FEATURES

Improve your print quality and expand your screen printing capabilities with Anatol's easy-to-use BIG FORGE in-line heat press! The BIG FORGE mounts in the screen holders of your Anatol automatic screen printing press, applying heat and pressure to your substrate. It can also be mounted on machines from other manufacturers (with front/rear screen holders) by moving the electrical box to the left side of the BIG FORGE. Use it to flatten fibers and smooth your ink layers, reducing fibrillation and providing a solid base for bright, vibrant prints on dark garments. Apply foil transfers and cure discharge ink right on your screen printing press, and more!

Features

- Easy installation in the screen holders of your Anatol automatic screen printing press and on machines from other manufacturers.
- Heating plate dimensions: 19.7" (500mm) x 15.7" (400mm)
- Compatible with Anatol Volt, Vector and Titan presses with S (15" x 16") and M (16" x 18") print areas
- Frame dimensions: 25.4" (645mm) x 21.5" (545mm)
- Stationary heat press, providing uniform pressure and heating over the entire print area
- User-friendly digital temperature adjustment controls
- Set heating surface temperature up to 392°F/200°C
- The Forge automatically maintains set temperature
- Unique design ensures even distribution of heat and pressure
- The heating plate is adjustable in height for better adjustment
- The Big Forge has its own power supply, it does not draw power from the automatic press.
- Onboard controls (does not communicate with an automatic press)

Mounted in an Anatol automatic press

Reposition the electrical box for use with front/rear screen holders

INSTALLATION	WIDTH	LENGTH	HEIGHT	WEIGHT
STANDARD	21.5" 545 mm	28.7" 729 mm	6.8" 173 mm	63.5 lbs 28.8 kg
ELECTRICAL BOX ON THE LEFT	25.4" 645 mm	24.8" 629 mm	6.8" 173 mm	63.5 lbs 28.8 kg
