STANDARD FEATURES

Screen cleaning is a vital step in the screen printing process. Constructed of stainless steel, the Anatol Washout Booth is a self-contained, easy-to-clean system designed to withstand years of daily washing, emulsion and ink recovery. The ultra-reliable and efficient LED panel provides uniform, effective illumination of the entire work surface and provides the operator with the best view for detecting ink residue.

Design Features

- The simple design makes installation and assembly of the structure quick and convenient.
- Large selection of washing chamber sizes.
- The design allows connecting a filter.

LED Features

- The bright LED panel is powered by a regular outlet.
- The LED panel does not require maintenance and is designed for a service life of up to 50,000 hours.
- The LED panel is protected by a transparent protective screen.
