## COMET LIGHT

 **The speed and efficiency of quartz flash curing in our most affordable package**

- Set your desired flash time with the easy-to-use digital controller
- Pallet sensor detects when a shirt is under the flash for automatic activation/deactivation - so the lamps are only on when you need them, reducing energy compared to infrared flashes which are always on
- Quartz lamps heat up and cool down quickly
- Multiple curing zones - two or three zones depending on the size of the flash (see table below)
