BIG FORGE

In-Line Heat Press

Heat Press for Automatic Screen Printing Machines

- Mat fibers and smooth ink layers to improve underbase quality and reduce fibrillation
- Mounts easily in the screen holders of your Anatol automatic press
- Digital temperature adjustment controls

Improve your print quality and expand your screen printing possibilities with Anatol's easy-to-use BIG FORGE in-line heat press! The BIG FORGE mounts in the screen holders of your Anatol automatic screen printing press, providing heat and pressure to your substrate. Use it to mat down fibers and smooth your ink layers, reducing fibrillation and giving you a solid underbase for bright, vibrant prints on dark garments. Apply foil transfers and cure discharge ink right on your screen printing press, and more!

Operation

- Easy installation in the screen holders of your Anatol automatic screen printing press
- The Forge is activated manually and works independently of the press
- Compatible with Anatol Volt, Vector and Titan presses with S (15" x 16") and M (16" x 18") print areas
- Stationary heat press, providing uniform pressure and heating over the entire print area
- User-friendly digital temperature adjustment controls
- Set heating surface temperature up to 392°F/200°C
- The Forge automatically maintains set temperature
- Unique design ensures even distribution of heat and pressure

Digital temperature controls

Easily mounts in the screen holders on your Anatol automatic press
